Air Hawk - A Better Tire...and a Great Value !

If you are looking for increased level of performance and security at a price that will not hurt your budget, the AirHawk is an excellent choice for a wide range of applications. Improved tread compounds and high strength casings offer added wear resistance and a extra measure of security. FAA approved and tested by thousands of pilots. The AirHawk delivers reliable, cost-effective performance under a wide variety of takeoff and landing conditions. A superb choice when you require added safety at a lower cost

- High quality rubber compounds provide durability and long service life
- Specially engineered for added reliability during takeoff and landing
- Fully tested - in the lab and the runway

Available in a wide range of sizes for personal, corporate and fleet aircraft operations

Tempest™ Original Spin-on Oil Filters

Full size filter design incorporates the following features as compared to competitive filters:

- Thickest can and base plate with full weld integrity
- Highest burst pressure rating—over 600 psi
- More filtration media—311 sq. inches
- *Only* filter to meet TCM bypass relief valve specs of 12-14 psi
- Non-stick gasket insure proper torque during installation
- Improved nut welds

All Tempest™ Spin-on Oil Filters part numbers are FAA/PMA approved.

Gill Batteries

“The Original Equipment Aircraft Battery” fro many flying in the skies today. Gill Battery products are proven to last and out-perform the competition. All batteries and acid ship UPS ground. No air shipments

To Order: 1.765.620.8560 or sales@andair-ari.com

Our Suppliers

DRE Communications Co.

DRE Communications Company provides high quality aviation headsets, aviation accessories and aviation communication equipment. DRE Communications Company was founded in Orange County in 1992. The first two years in the company's existence were devoted to R&D, in line with the company's philosophy that it would only market products that are of the highest caliber.

Gleim Publications

Gleim Publications develops and distributes a variety of study and reference materials and services to help you learn and understand Account and Aviation (Pilot training) information.

We help you attain higher level of knowledge (analysis, synthesis, and evaluation) while you learn concepts and problem solving techniques. Our mission is to maximize knowledge transfer while minimizing your time, frustration, and cost.

Airguide Publications, Inc

Airguide Publications, Inc. was founded by **Monty Navarre** in 1960 when his idea for **Flight Guide** came to life. He designed and developed **Flight Guide** because there wasn't a suitable airport and frequency manual for VFR pilots. Today, **Flight Guide** has served general aviation for over 45 years and is the nation's leading VFR airport and frequency manual.

To those of you who don't have **Flight Guide**, we ask that you see for yourself how good **Flight Guide** is by going to the Flight Guide Manuals link, which explains the benefit of **Flight Guide** in detail. To those of you who already have **Flight Guide**, we thank you for your continued patronage and hope we are meeting your needs in an airport and frequency manual.
